Principal's Note

Pertussis (Whooping Cough)

We have received reports of isolated incidents of Whooping Cough in an around our community and a student at Junee Public School has also been tested. Whooping cough is an infection of the throat that can cause bouts of coughing, and sometimes breathing difficulties and vomiting. It usually starts with common cold like symptoms. We have included with our newsletter a letter from NSW Health that outlines what you should do if you suspect your child or anyone else in the family presents with Whooping Cough symptoms. Please take a few moments to read the letter and take appropriate action where necessary to avoid spreading infection. Vaccination is the most important way of reducing pertussis in our community.

Canteen news

Over the past couple of weeks the canteen has been providing an option for staff to purchase a homemade lunch made by Natasha Gill each Wednesday. This has been a great initiative and way of working out what recipes we could incorporate into our Healthy School Canteen menu for our students. A massive thank you to Natasha for her cooking. The staff have really appreciated tasting the different dishes to try.

Riverina Environmental Education Centre

As part of our NAIDOC WEEK Celebrations, over two days next week our students will be heading into Wagga Wagga to the Riverina Environmental Education Centre. Our students will be engaging in a Traditional Culture program. Aunty Jocelyn, an Aboriginal Elder, will accompany our students to help them gain an insight into traditional Aboriginal heritage. Students will have the opportunity to learn about bush tucker, traditional medicines and tools, utensils and weapons that have been crafted by Aboriginal people. This is by no means the whole program and we strongly encourage all students to attend. If you have not yet handed in your permission note and money we strongly suggest you do as there is a cut off for the excursion of MONDAY 24th June. No late notes or money will be accepted for this excursion after this date and your child/ren will remain at school.

Synthetic Courts

Over the past week work has begun on our new courts. We have been informed that they will commence laying the grass this week, subject to weather conditions. Our students can't wait to try them out and I'm sure you also share in the excitement of our new playground instalment. I am currently investigating the purchase of new cold water filtration systems to be installed. This will replace our old bubblers and reduce water wastage. Stay tuned for more exciting announcements to come in relation to our phase two school upgrade.

Working process of our new Synthetic Courts

Enjoy the remainder of your week!

Tracy Delaney

P & C News

A reminder that our canteen is open each day for afternoon recess and lunch orders on Monday, Wednesday and Friday. Please make sure you clearly mark your child's name and class on their order. We are always welcoming new canteen volunteers so please contact Rachel if you are able to volunteer for an hour or more.

PBL

This fortnight our PBL focus is Wear Uniform. It is part of our core value; Be Responsible. Students are reminded to wear their full school uniform each day. Wearing a uniform not only displays responsibility it also encourages and supports a sense of belonging to our school community.

News from the Classroom

Wow! Where has the time gone? We have almost reached the halfway point of the year!

The Muliyan classroom has been an exceptionally busy place to be this term. During Literacy we have been continuing to build our learning attitudes and strategies with a big focus on fluency, expressiveness and meaning in reading and structure, grammar, spelling and persuasive techniques. We have created extensive summaries about a pair of pesky chickens who escaped from a primary school and Mrs Delaney will be receiving some letters shortly regarding the positives and negatives of indoor and outdoor play. We have almost finished our Nanberry novel study and will be moving onto Jackie French's 'Hitler's Daughter' before we see the theatrical version at the Civic Theatre later this year.

During mathematics we have had a major focus on Measurement, Geography and Data and Chance this term. Students have been hard at work calculating,

converting and creating across all areas. In recent times we have enjoyed integrating aspects of our components of fitness unit during health into maths. We have used our mathematical knowledge to calculate problems involving heart rates, strength, speed over fixed distances and length just to name a few.

During History we are starting to move from our focus on the early colonisation of Australia onto the more exciting gold rush era. Everyone is keen to investigate why people came to Australia to strike it rich and the different techniques they used to find gold.

In addition to our components of fitness exploration in Health, we have also been playing a number of modified tag and invasion games for sport. These have included league tag, European handball and American Football.

Finally, we have begun to practice the art of mindfulness of an afternoon. This has been helpful in creating a positive and productive learning environment after recess playtime. We have been using the 'Smiling Minds' app and practicing breathing, calming techniques and gratitude.

Upcoming events for Muliyan include a short film workshop, JHS production and NAIDOC activities at the Riverina Environmental Education Centre.

The Sports Report (by Mr Cox)

Congratulations to Harrison Fanning who recently competed at the Riverina Cross Country carnival in Gundagai. Harrison came 3rd in his age group which means he was successful in gaining a position in the Riverina team that will be competing in Sydney later this year. We wish Harrison the best of luck!

Permission notes for the district athletics carnival will be going out later this week. Students who finished first or second overall in an event at our school carnival will qualify. The Carnival will be taking place on Friday Week 3 of next Term at Nixon Park in Temora.

Reminder

Our Stage 2 excursion to Borambola Sport and Recreation Centre is only two terms away and we will soon need to finalise our student numbers for accommodation.

There are still a number of students who have not yet indicated if they will be participating in the excursion.

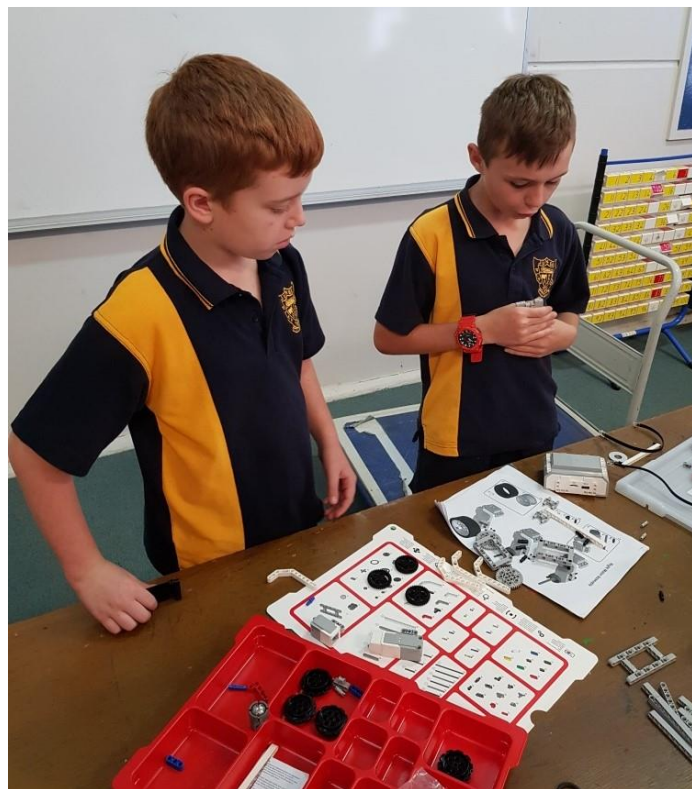

Could parents please inform the school if your child is or is not attending the excursion, to assist with the organisation of accommodation and meals?

The cost of the excursion can be paid in instalments. If you are having difficulties or there is an issue that you would like to discuss, please contact myself or the ladies in the office so that all efforts can be made to ensure your child can attend.

To avoid your child missing out, please contact the school as soon as possible.

It will be a wonderful opportunity for students to learn new skills and take on new challenges and experiences and it is always a lot of fun!

Tim Harris
Stage 2 excursion coordinator.

Pertussis (whooping cough)

Albury Public Health Unit is investigating a confirmed case of pertussis (whooping cough) in a person who attends Junee Public School. I am writing to provide advice and to ask that you watch out for the symptoms of pertussis, especially over the next few weeks.

What is pertussis?

Pertussis is an infection of the throat that can cause bouts of coughing, and sometimes breathing difficulties and vomiting. It can be a very serious infection in small children. The illness can last for many weeks. It usually starts with a sniffle or a cold.

What should people sick with pertussis do?

If your child has symptoms, or develops symptoms take this letter and see your local doctor as soon as possible. Your doctor can advise whether pertussis is likely and arrange for early treatment if needed. Treating people who have pertussis with antibiotics can stop the infection spreading, but is more effective if started early.

To help prevent this infection spreading, people who have been diagnosed with pertussis should not attend School, childcare or work until they have completed the first 5 days of a course of the recommended antibiotics. If antibiotics cannot be taken, then they must stay away for 3 weeks after onset of the cough.

How is it prevented?

Vaccination is the most important way of reducing pertussis in our community. It is important to check that your child is fully up to date with his or her immunisations against pertussis. If you are unsure of your child's immunisation status, please check with your doctor.

Immunity to whooping cough from immunisation or infection is not life-long. It is therefore important to seek medical attention if your child develops a cough, even if fully immunised.

If symptoms develop please take this letter and see your doctor ASAP. A course of antibiotics may be required prior to returning to school. A pathology test may also be requested. (Nasopharyngeal or throat swab is the preferred specimen)

Need more information?

For more information, please see the attached Pertussis Fact sheet, or call the Infectious Disease Surveillance Officer at the Public Health Unit on 1300 066 055.
